

CRITERIA FOR 2020 CERTIFICATION

To obtain the 2020 certificate, companies have to fulfill the following commitments:

1. Start by eliminating at least three (3) single-use plastic products from your line of business, eg: straws, glasses, cutlery (1 star).
2. Commit to developing a roadmap containing real targets for the reduction of single-use plastics, specifying concrete actions to achieve these goals and introducing the deadlines for the reduction of single-use plastics by 2023 (beyond legal requirements).
3. 3 stars and upwards: Do not replace single-use plastics with bioplastics, biodegradable plastics or compostable plastics.
4. Introduce reusable alternatives and reuse systems for the replacement of single-use plastic, for example the introduction of water fountains and/or filters, refillable bottles for customers and employees, bulk purchases, return and refund deposit systems (SDDR) for take-aways, refillable cleaning products, laundry without plastic bags etc.
5. Make sure your company has a recycling system for all categories of waste (plastic, glass, paper).
6. Recycle your organic waste.
