### **IMPORTANT NOTE ABOUT ORGANIC WASTE AND BIODEGRADABLE/COMPOSTABLE ITEMS**

**IF THERE IS AN ORGANIC WASTE (BROWN BIN) COLLECTION, COMPOSTABLE ITEMS CAN BE DEPOSITED IN THESE CONTAINERS. OTHERWISE THEY SHOULD BE PUT IN THE “OTHER” WASTE CONTAINER.**

At present, and ONLY in FORMENTERA, organic waste is collected for 6 months of the year. There is not yet an organic waste recycling service in Ibiza.

Many of these bioplastics, if discarded in the yellow container, can hinder the plastic recycling process. Opt for reusable whenever possible; only when it's absolutely essential should you use single-use biodegradable or compostable items.
